

Electrophysiology— live lecture webinars

Philips Learning Center

Continuing education—anywhere, anytime

The Philips Learning Center is designed around your staff's changing needs and continuing education requirements. We are partnering with Healthworks, Inc. to offer a series of live lecture webinars on electrophysiology (EP) of the heart.

The EP Webinars are listed in the Cardiology and the Scheduled Webinars sections of the course catalog. Choose from convenient dates, with individual or group registration options available.

Space is limited to 200 seats per lecture so please register today at www.theonlinelearningcenter.com

Webinars will be added periodically, so please check the site often!

The series is being presented by

Jeffrey A. Stiffler, BA, AST, RCIS, CCDS, CEPS
Executive Vice President, Electrophysiology
Healthworks, Inc.

Marta Martinez, BA, CVT
Clinical Specialist/Education Associate
Healthworks, Inc.

The major topics in this series include:

- Cardiac Anatomy and Physiology
- Diagnostic EP Equipment
- Diagnostic EP Techniques
- Atrioventricular Node Ablation
- Atrial Flutter
- Atrioventricular Node Rentry Tachycardia (AVNRT)

For any questions about the Philips Learning Center or about registering for an event please email info@theonlinelearningcenter.com or call **1-800-692-4295**.

For any questions about the webinar series, please contact the Healthworks Inc. Education Department via email at education@healthworksonline.cc or call **1-866-495-7462**.
